A heritage carried forward

Peruvian roots inform the way we think about plants, usefulness and care. The work continues in North Carolina, where every formula is made in small batches.

ROOTED IN HERITAGE. CRAFTED WITH INTENTION.

Inspired by our family's Peruvian traditions and thoughtfully made in North Carolina.

THE ANDES / PERU / NORTH CAROLINA

Family heritage is present without turning the products into souvenirs.

WHAT WE LEAVE OUT

A formula should be
easy to explain.

NO MYSTERY FRAGRANCE

Scent comes from essential oils, botanicals or naturally aromatic ingredients.

NO DECORATIVE DYE

Color belongs to the formula itself, not a marketing shade.

MORE THAN TWO BUZZWORDS

Parabens and phthalates matter, but the standard goes further: petroleum by-products, unnecessary additives and anything that cannot earn its place.

SAFETY STILL MATTERS

When preservation is necessary, we choose a responsible system rather than make an unsafe preservative-free claim.
